DETAILED ACTION

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figure 1 does not specifically point out where reference numerals 1-13 are referring to in the drawing. Currently all of the reference numerals 1-13 either point by arrow "below" or arrow "above", which is confusing. Furthermore, the background is dark making it difficult to decipher what the device looks like.

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The claim rejected under 35 U.S.C. 102(b) as being anticipated by Wilmoth, III (U.S. Patent No. 5,118,108). Wilmoth, III discloses a baton comprising a club portion (11), a handle portion (12), a hand guard (13), a trapping tip (14), a side guard (15). The Wilmoth, III device is capable of providing to the Police, Law Enforcement, Corrections, Medical and Public Safety

personnel a tool to safely control and restrain a physically aggressive person, and to minimize the use of force. With regards to the "Giraffe", as recited, this limitation has been considered but however had been given little weight into the broadly interpretation of the claim.
